For non Italian language readers, the following short flashes are presented in English.

This brief overview of Australian events, is only a small part of what has been spoken, written or captured on film by the "Media" during a 30 year span of intense activity by Mamma Lena revolving around aspects of SOCIAL, JOURNALISTIC and RADIO LIFE.

We are grateful to all for the close co-operation which occurred and for the level of understanding of the problems being experienced by the new arrivals in those difficult years of "mass migration".
