

ROSES IN THE RAIN

(Ciani - Helfard - Zotti)

If we ever meet again
My whole life through
I'd begin it all again
My love for you
If I ever find the way
To bring back time
I will give you every dream
I dreamed was mine

Then there'll be roses in the rain
Wish laughter in your eyes
Just like before
Where hearts would always long to sing
Through all the days of spring
For evermore
That's when I'll take your hand
And hold you near
Then I'll tell you those words of love
You long to hear

Every moment that we shared
We'd find anew
Every kiss you ever gave
Will be there too
Why should reason say that time
With life can't stay
Why should seasons even change
Then go their way

There should be roses in the rain
Wish laughter in your eyes
Just like before
Where hearts would always long to sing
Through all the days of spring
For evermore
That's when I'll take your hand
And hold you near
Then I'll tell you those words of love
You long to hear

Then there'll be roses in the rain
Roses in the rain just like before
La la la la la la la la la

I LOVE YOU FOREVER

(Ciani - Annetta - Vitenti)

I love you forever forever and ever
.....
The autumn leaves are falling
Drifting across the window
I hear the sound of music
It's music from the rain
From the falling rain
Music from the rain

Today I'm reminiscing
The happy times together
It seems just like a dream
A dream of yesterday
And I cannot accept
The yesterdays are gone

I love you forever forever and ever
I love you forever forever my darling

The whispering of the wind
The lovebirds on the trees
It brings back memories
Of the one I loved
When she used to be
So in love with me

Today I'm reminiscing
The happy times together
It seems just like a dream
A dream of yesterday
And I cannot accept
The yesterdays are gone

I love you forever forever and ever
That's what she used to say
When she used to be so in love with me

THE ONE YOU LOVE

(Ciani - Viviano - Sindoni)

Though you never talk about the one you
love
Deep inside she is the only one you know
Even when you'll find somebody new
She's the only one you love

You've been having many lovers in your life
But no one has ever been deep in your heart
She loves you more than anyone
She's possessing all the channels of your
mind

One day when I will fall in love
I would like the world to know
Let me tell you now that you're a fool
And you have a foolish heart

You're the lucky one, she loves you in
return
For it happens only once in this life
Go and find her now before it's too late
She's the only one you love

IT'S LOVING

(P. Ciani - A. Anelli)

I find you always there
I think you really care
The way you're treating me . . .
It's loving

When we are on a date
I fall into my veins
The blood is pulsating hard . . .
It's loving

It's loving even when I think about you
When you come to my mind with loving
care
It's loving when I know that you're beside
me
More loving when I hold you in my arms

It's loving, sweet loving
You give to me . . .
And if you think it's not,
Tell me what's love

UNTIL DOMANI

(P. Ciani - J. Aranda)

Until domani will you stay with me till then
Just till domani let me love you once again
Until domani may not seem for very long
But domani means tomorrow
And you know what they say
My love . . . tomorrow never comes

Until domani I can feel the warmth of you
And this domani when the night is almost
through
You'll find domani is forever and a day
Cos domani means tomorrow
And you know what they say
My love . . . tomorrow never comes

Time for you and me will always be this
way
Touch me and you know it will
Reach out there are no yesterdays
We can hold time still

Sino domani or the time we find it's true
Somehow domani has come round for me
and you
But that's domani and so very far away
Let's forget about tomorrow
Cos you know what they say
My love . . . tomorrow never comes

Yes domani means tomorrow
And it's true what they say - my love
Tomorrow never comes
Tomorrow never comes

ARATE TABLES

(P. Ciani - G. Faigi)

alone at separate tables
eat in public and don't speak
I'd meet on the short line
old me close one day each week

now we've both got obligations
we've both got ties that bind
need you and I want you
you're another man's not mine

the tables separate lovers
the lives between the lines
no needing is your loving
sweetly on my mind

the tables separate lovers
the lives between the lines
no needing is your loving
sweetly on my mind

IT PRETEND

(P)

pretend you don't know me I know

somewhere
I use to pretend

pretend

your lovely blue eyes
your beautiful smile
to my world don't deceive me
ful woman wonderful woman
don't pretend

remember your face
I'm trying to remember your name
remember the place
high in the sky on a plane
holding your hand

IN LOVE AGAIN

(P. Ciani - A. Anelli)

To fall in love again
It happens everyday
It happens everywhere
Around the world

You never know
It could happen to us now
To fall in love again
Just once again again again
You never know
The way I feel right now
Must be that I am falling
in love again

Remember long ago
When we were seventeen
We fell in love too soon
So much too soon

You never know
It could happen to us now
To fall in love again
Just once again again again
You never know
The way I feel right now
Must be that I am falling
in love again

JOANNA

(P. Ciani)

Memories of you is all I have
Memories of many happy days
Now my life is like an empty shell
It seems that no one else
Can take your place
I feel so lonely
I'm feeling blue
There will never be another you

Joanna
What happened to our love
Joanna
Why did you go away
Joanna
Please give me one more chance
I love you, love you really love you so
And I don't want to ever let you go

Every night I hold you in my dreams
Just the way I used to hold you once
Though when I reach out you disappear
And I wake up into an empty room
.....
.....

Joanna, what happened to our love
Joanna, why did you go away
Joanna, please give me one more chance
I love you, love you really love you so
And I don't want to ever let you go

Joanna, Joanna I love you so
