SAFETY FIRST

1. When there is a footpath, it and keep to your left on a roadway, always
2. When you are compelled to walk facing the oncoming traf
3. Never step off a footpath u you are sure it is saf
4. Wait until a bus or train stopped before you get on or off.
5. Never put your arms or legs out of a window on a bus or train.
6. Before you cross a road, stop aside, then if it is clear cross a careful lookout all the time traffic comes.

FIRST AID

When an accident happens—

CALL THE AMBULANCE immediately and state location and nature of the accident.

STOP BLEEDING by direct pressure on the wound by means of a firm pad made from a clean material, and bind just tight enough to stop the bleeding.

ARTIFICIAL RESPIRATION. If a person has ceased breathing, it is dead. If anyone present has a knowledge of artificial respiration it should be applied immediately.

TREAT FOR SHOCK. Keep the person warm by covering with coats, rugs, socks, etc., and tea or coffee. In plenty of plenty of fresh air and prevent a shockers from crowding around.

PERSON PINNED DOWN. Release a person who may be pinned down by lifting or rolling away the object.

INTS

by and state location and nature of the accident.

on the wound by means of a firm pad made from a clean material, and bind just tight enough to stop the bleeding.

person has ceased breathing, it is dead. If anyone present has a knowledge of artificial respiration it should be applied immediately.

person warm by covering with coats, rugs, socks, etc., and tea or coffee. In plenty of plenty of fresh air and prevent a shockers from crowding around.

PERSON PINNED DOWN. Release a person who may be pinned down by lifting or rolling away the object.

7. Do not try to beat a moving vehicle, it takes a driver time and distance to stop.
8. If you cannot see the oncoming traffic, they cannot see you. Take particular care.
9. At traffic signals or a police-controlled crossing, watch the traffic as well as the signals, cross the road only when permitted, do not try to beat them. Look out for traffic turning into the street you're crossing.
10. Remember it is a courteous act to help small children, the aged and the blind to cross the road safely.
11. Do not ride a push-bike without knowing the rules of the road.
12. Make sure your bike is roadworthy and has all necessary equipment.

WHAT TO AVOID

DO NOT move an injured person unless in danger of further injury, such as may be caused by fire, poisonous fumes, etc. (There may be a broken bone, the sharp edges of which, if moved, may damage vital organs or arteries.)

DO NOT allow a person to stand or walk after an accident, especially if he or she is suffering from dizziness, internal pain or injury to the head, back or limbs.

DO NOT give an unconscious person anything to drink, but turn the head to one side to prevent the tongue blocking the air passages.

DO NOT GIVE ALCOHOL to an injured person.

An expert knowledge of first aid will enable you to give immediate attention to an injured person and may perhaps be the means of saving life.

Information with regard to classes in first aid can be obtained from local Ambulance Officials or from the St. John Ambulance Association in your State.

LINEAR OR LENGTH MEASURE

12 INCHES (IN.) (")	= 1 FOOT (FT.) (')
3 FEET OR 36 INCHES	= 1 YARD (YD.)
5 1/2 YARDS OR 10 1/2 FT.	= 1 ROD (RD.)
25 LINKS	= 1 ROD (POLE OR PERCH)
4 RODS	= 1 CHAIN (CH.)
22 YARDS	= 1 CHAIN
